

Geothermal Exploration Business

Geothermal Exploration Business

Geothermal Exploration Business operation license number located in Salihli district, approximately 55 km southeast of Manisa province, and covers an area of 4939.32 hectares.

Many geophysical studies have been carried out by different researchers in different years in the field. With the synthesis of these data, 8 different locations with the highest probability of the presence of hot fluid within the license area were determined.

There are 2 geothermal wells in the license area. The first of these is the Arma-1 (2,482 m) well drilled for research purposes. The second well drilled in the field and used for greenhouse heating is the D-1 (849 m) well.

There are many geothermal operation license fields adjacent to and in the vicinity of the operation license number 2015/04. There are more than 50 geothermal wells with temperatures ranging from 65 to 287 °C in these license areas. These wells are used in different fields such as electricity generation, greenhouse cultivation and residential heating.

With the Monte Carlo Simulation prepared for the license area, the possible thermal heat reserve of the area and the amount of power that can be produced were calculated.

Accordingly, the reproducible thermal heat reserve is calculated as 2.3×10^{15} kJ with 85% probability, 18.6 MWe with 95% probability, 25.5 MWe with 85% probability, and 57.0 MWe with 50% probability.

The reproducible thermal heat reserve was calculated by operating 10,000 times. With the Monte Carlo Simulation for the study area, it has been determined that the thermal heat value that can be produced in the reservoir will be between 9.7×10^{15} kJ and 1.6×10^{15} kJ in the 5%-95% confidence interval. Here, the most probable value was determined as 4.9×10^{15} kJ.

The electricity generation potential of the geothermal license area is planned according to the Monte Carlo simulation result for 22 years of production; the electricity generation potential was calculated to be between 112.2 MWe and 18.6 MWe in the 5%-95% confidence interval. It was concluded that this value was 57.05 MWe on average.

Key Data

- YEKDEM price: 205.13 TL cent/kWh
- Application period: 15 years
- Domestic contribution price: 29.25 TL cent/kWh
- Domestic contribution validity period: 5 years

TARGET PRICE

\$150,000,000

BUSINESS TYPE

Renewable Energy

COUNTRY

Turkey

BUSINESS ID

L#20230575

The information contained herein does not constitute an offer to sell or a solicitation of an offer or a recommendation to purchase securities under the securities laws of any jurisdiction, including the United States Securities Act of 1933, as amended, or any US state securities laws, or a solicitation to enter into any other transaction

The projected financial information contained in the Memorandum is based on judgmental estimates and assumptions made by the management of the target Company, about circumstances and events that have not yet taken place. Accordingly, there can be no assurance that the projected results will be attained. In particular, but without prejudice to the generality of the foregoing, no representation or warranty whatsoever is given in relation to the reasonableness or achievability of the projections contained in the Memorandum or in relation to the bases and assumptions underlying such projections and you must satisfy yourself in relation to the reasonableness, achievability and accuracy thereof.

By delivering this Memorandum, neither MergersUS Inc., nor its authorized agents are making any recommendations regarding the acquisition or strategies outlined herein. Interested parties shall exercise independent judgment in, and have sole responsibility for, determining whether an acquisition of the Company is suitable for them, and neither MergersUS Inc, nor its authorized agents have responsibility to, and will not, monitor the condition of interested parties to determine that an acquisition is or remains suitable for them. Among other things, suitability of an acquisition will depend upon an interested party's investment and business plans and financial situation.

This document is prepared for information purposes only. It is made available on the express understanding that it will be used for the sole purpose of assisting the recipients to decide whether they wish to proceed with a further investigation of the Proposed Transaction.

The recipients realize and agree that this document is not intended to form the basis of any investment decision or any other appraisal or decision regarding the Proposed Transaction, and does not constitute the basis for the contract which may be concluded in relation to the Proposed Transaction.

All information contained in this document may subsequently be updated and adjusted. MergersUS Inc. has not independently verified any of the information contained herein or on which this document is based. Neither the Company, nor its management or shareholders, nor MergersUS Inc. , nor any of their respective directors, partners, officers, employees or affiliates make any representation or warranty (express or implied) or accept or will accept any responsibility or liability regarding or in relation to the accuracy or completeness of the information contained in this document or any other written or oral information made available to any interested party or its advisers. Any liability in respect of any such information or any inaccuracy in or omission from the document is expressly disclaimed.
