3-Year-Old E-Commerce Health & Nutritional Supplement Business

Available for acquisition is an ecommerce platform dedicated to providing support for individuals diagnosed with kidney disease. With 1 in 7 Americans and 1 in 10 people worldwide affected by kidney disease, there is a critical need for information and resources to manage and treat this condition. Unfortunately, many individuals are not aware that kidney disease is preventable and treatable. Even for people on dialysis there is an opportunity to improve kidney function and, in some cases, come off dialysis altogether.

The business has a key online program, launched in 2009, that offers a comprehensive guide to naturally support and potentially improve kidney function through a combination of diet, herbal medicine, nutritional medicine, meditation, exercise, and mindset practices. In addition, they produce high-quality, nutrient and herbal-specific supplements recommended within the program. Supplements were launched in 2021.
