

Glued laminated Timber House Manufacturing Business

MERGERSCORP

Glued laminated Timber House Manufacturing Business

This is an established and operating business specializing in the manufacture of prefabricated glued laminated timber houses. The seller is also open to selling a minority stake to a strategic partner in order to increase working capital and expand production capacity.

Operating at a federal scale, the company supplies house kits across Russia—from the western regions to the Far East—as well as to Central Asia and other international markets.

Products

- Kits for assembling houses from glued laminated timber (the company also builds prefabricated houses from kits, as well as cottage villages)
- Half-timbered timber
- Finishing elements
- Mouldings

Production

- Full production cycle: board drying, processing, manufacturing.
- Large production site.
- Total production area: 75.5 thousand m², industrial buildings 11,000 m², office building 1,394 m².
- Land and premises are owned.
- CNC equipment.
- Own utilities and full infrastructure.
- Productivity up to 40,000 m²/year (>1,200 m³ of glued laminated timber house kits per month).
- The production facility is registered with the Ministry of Industry and Trade of the Russian Federation.
- The facility has all the necessary production certificates.
- The company's products received a European certificate in 2019 SE.

Sales

- Sales throughout Russia, the CIS, and abroad.
- Sales offices in Moscow, representative offices in Russia and abroad.
- Dealer network, franchise, and retail sales.

Market Status

- The wooden house market is expected to develop as a driver of domestic timber consumption.
- According to various estimates, the share of low-rise housing construction ranges from 40 to 70% of the total housing construction market in Russia. It is growing year after year due to the development of infrastructure outside the city, delivery services, and remote work.

TARGET PRICE

- At the same time, the share of organized low-rise housing construction is approximately 10% (or 4-5% of the overall housing market).
- The volume of construction of wooden houses from glued laminated timber in Russia alone is approximately 11,200,000 square meters (1,164,000 million).
- The balance of foreign trade in wooden house kits has shown a steady upward trend. The market is actively developing towards Asia and America.
- Due to rising prices for construction and building materials, glued laminated timber has become one of the most effective and cost-effective technologies for building finished housing.

Competitive advantages

- The company uses its own sorting system for incoming lumber, which allows it to produce products in various price categories.
- Using a unique technology for additional sorting of timber plots allows for the industrial production of premium knot-free timber with increased temperature resistance.
- Recycling waste ensures efficient raw material consumption and low cost.
- An in-house laboratory ensures high product quality.
- CE and ISO quality management system certification.

Prospects Development

- Possibility of further expansion through increased working capital and product diversification.
- There is potential for deeper cost optimization and increased margins.
