MERGERSCORP

30-Year-Old Global Seed Bank & Vertically Integrated Platform

A unique opportunity to acquire a diversified, vertically integrated cannabis group comprising:

- A 30-year legacy Dutch seed bank and global genetics brand
- A centrally located Amsterdam retail store and international e-commerce platform
- A fully licensed 1.5-hectare Colombian cultivation and export operation

Note: Each business can also be acquired separately.

Amsterdam Legacy Cannabis Genetics Brand

A 100% equity acquisition of a pioneering Dutch seed bank with over 30 years of operational history. The transaction includes all intellectual property and operational assets, including genetics, tissue culture IP, breeder's rights, contracts, packaged and unpackaged inventory, breeder stock, equipment, trade show assets, digital infrastructure (websites and domains), systems, processes, brand assets, and the full team.

The headquarters are located at Hoogoorddreef 103, Amsterdam, leased from the holding structure (Internature B.V.) at a fair market rent of €2,750/month.

This is a globally recognized cannabis genetics brand with a portfolio of 40+ developed cultivars, a proprietary genetic library in seeds and tissue culture, and over 50 international awards. The company also holds multiple CPVO registrations.

The business generates consistent annual revenues of approximately €1.1–1.5 million, derived from a diversified mix of B2B wholesale, medical genetics licensing, and direct-to-consumer e-commerce. It maintains established relationships with leading international distributors and long-term licensing agreements with global medical cannabis producers.

Amsterdam Retail & E-Commerce Business

An asset sale including all digital infrastructure (websites and domains), inventory, equipment (including office hardware and retail fixtures), and operational team.

The retail location at Gravenstraat 12, Amsterdam is leased from a neighbouring hotel operator (P en E Hotels) at a monthly rent of €3,569.50.

This centrally located retail store and global e-commerce platform specializes in cannabis seeds and related products. The business generates approximately €1.0–1.4 million in annual revenue, split evenly between international online sales and physical retail traffic.

It represents one of Amsterdam's largest curated cannabis seed inventories and serves as a direct-to-consumer commercialization channel for genetics and brand equity. The operation is currently under-optimized, presenting clear opportunities for digital scaling, margin improvement, and operational efficiency—particularly through integration with its affiliated genetics brand.
