Swiss Asset Management (AM) and Financial Advisory FINMA

Recent regulatory changes, in particular AML, FinIA, FinSA and regulations, have required Swiss financial intermediaries to make more in-depth documentation and organizational adjustments within relatively short deadlines. In order to minimize the requirements for asset manager, investment advisor and fiduciary licenses, we have developed an effective turnkey solution to manage the entire FinIA/FinSA compliance implementation process up to the time when an applicant is FINMA certified. Following the FINMA Enhanced Procedures and the outsourcing of compliance and risk functions in a broader sense, we are actively involved in the area of compliance remediation, providing support services, monitoring and outsourcing of compliance and risk functions to our clients in order to achieve the objectives of FinIA/FinSA, thus facilitating interactions with the custodian banks to stay up-to-date and compliant with regulatory and legal requirements.
