

Football Club Opportunity with New Stadium Development Potential

Football Club Opportunity with New Stadium Development Potential

This is a semi-professional football club based in the United Kingdom with over a century of history in the sport. The club currently competes in the eighth tier of English football and has an opportunity for growth.

Competition Level

The club plays in the Isthmian League Southeast Division, a semi-professional football league consisting of 20 teams. Having been active for over 100 years, the club is enjoying success this season and could earn promotion this season.

Leadership Opportunity

The club has an opening on its board of directors for an investor. This presents the opportunity to take a minority ownership stake and play a role in shaping the club's future.

Infrastructure Development

Plans are in the final stages for a new stadium that will further the club's long-term development goals. This investment supports revenue growth through expanded matchday operations and community programming.

Financial Summary

The club generates revenue primarily from matchday tickets and sponsorship. With continued success and a new home, these streams have room to expand. The target price for a 10% minority ownership stake is £250,000.
